Results

ARAVIND RAVIKUMAR

Procedure

1. Run app1.py and open localhost in web browser. Select Complaint Registration page Link.

2. All the inputs are filled in Complaint registration page and get stored in database.

3. A Complaint registration number is generated each time when a record is entered in database table.

4. Go back to home page and select Complaint Status page Link.

5. Enter the complaint registration number and click search. (The complaint registration number starts from 1028.)

6. The complaint status corresponding to complaint registration number is fetched from database and displayed on web page.

complaints table

name	invref	invdate	pname	nature	cref	status
